

ARTICLE REVIEW FORM

Journal: “**Law Journal of the National Academy of Internal Affairs**”

Article title: _____

ARTICLE ANALYSIS

Criteria	Yes	No
The title corresponds to the content and is relevant to the scientific audience.		
The article is original and contributes to the scientific literature.		
The abstract complies with the journal’s requirements (200-300 words).		
Keywords (4–7 terms or phrases) are relevant and do not duplicate the title.		
The introduction reflects the current state of the problem and cites recent sources (3–5 years).		
The research objective is clearly and correctly formulated.		
The 'Materials and Methods' section is properly described with the methodology applied.		
The 'Results and Discussion' section is substantiated, methodologically correct, and demonstrates novelty and practical value. It includes		

references to international research.		
Figures, charts, diagrams and formulas are of high quality and meet journal standards.		
Tables are numbered, referenced in the text, formatted correctly, and fully annotated.		
The article contains an optimal number of visual materials for this type of research.		
Conclusions fully and clearly reflect the research results, correspond to the aim and title, and are not a literal duplication of the abstract.		
The text contains no spelling, grammatical or typographical errors.		
All references are properly cited and formatted according to journal requirements. English titles are translated correctly.		
The reference list is presented in English, formatted according to APA 6th Referencing Style, and at least 30% of sources are indexed in Scopus or Web of Science.		

FINAL REVIEWER’S ASSESSMENT:

- Recommended for publication in the “Law Journal of the National Academy of Internal Affairs” without revisions.
- Can be published after minor corrections (no resubmission required).

- Can be published after substantial revisions according to reviewer's comments (resubmission required).
- Not recommended for publication.
